

Seamless VIP lounge access your travelers deserve.

- **Frictionless**

Leveraging the mobile app, travelers can easily enjoy our new secure and touchless experience for accessing the lounge. Providing a frictionless experience will make travelers feel like the VIP they are.

- **Modern Technology**

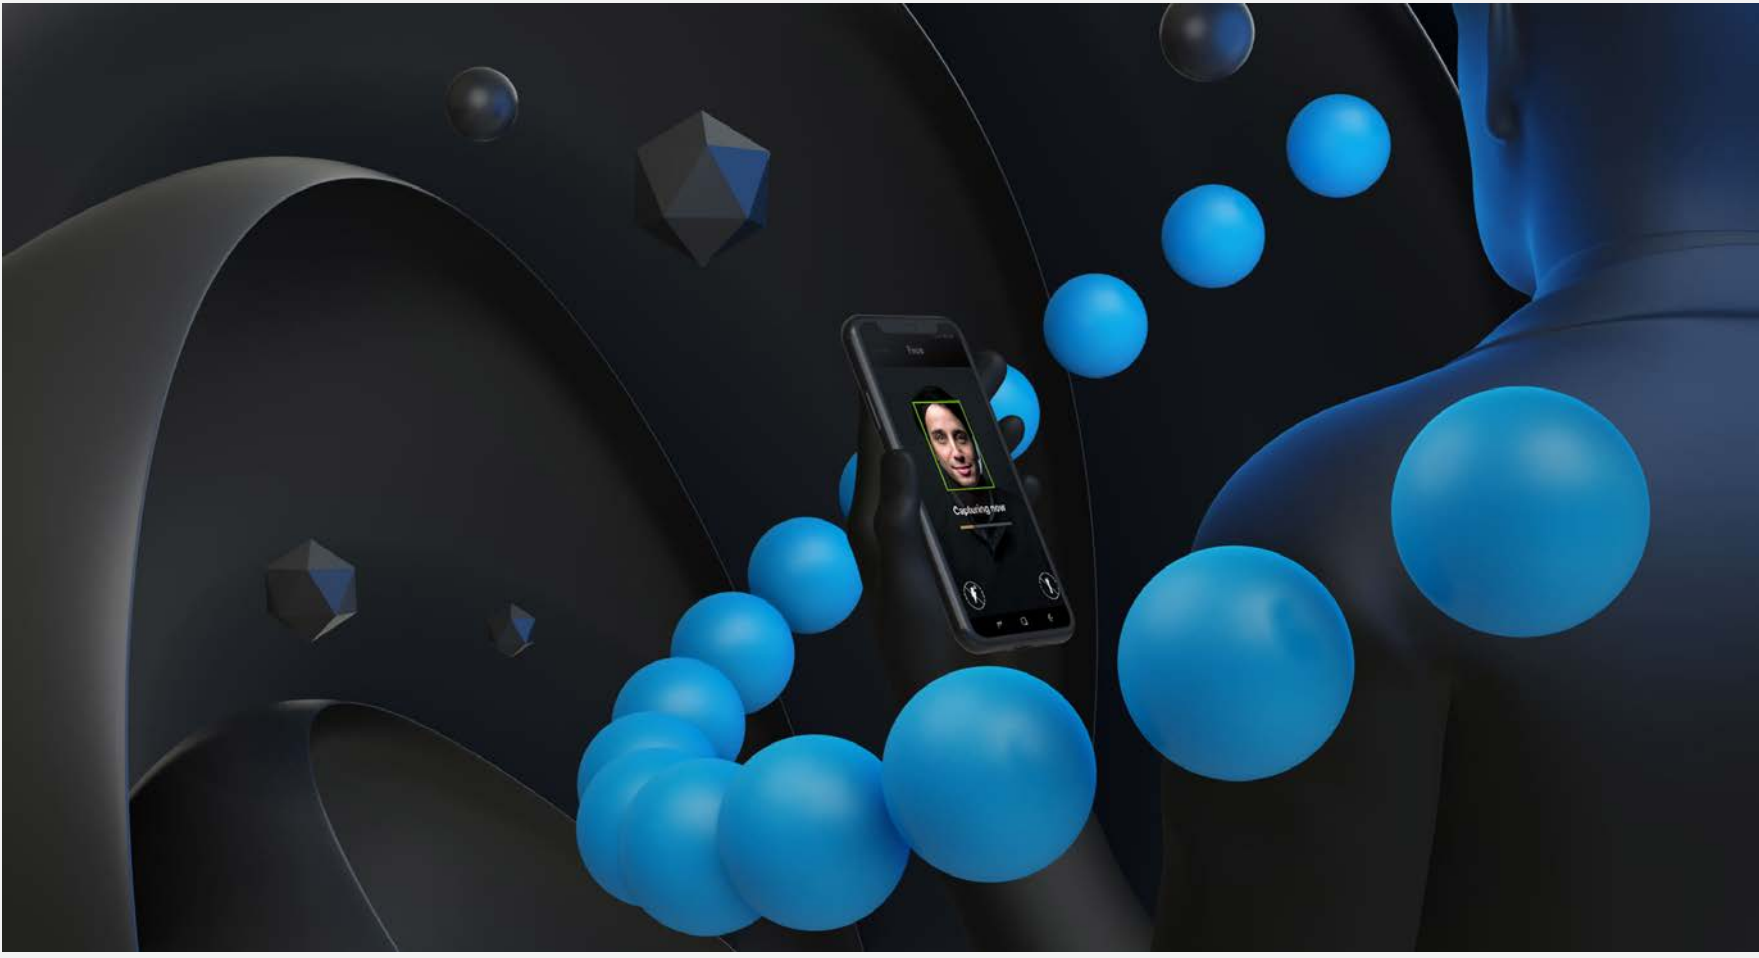

Leveraging state of the art biometrics solutions, travelers can enjoy a seamless lounge entry experience. By combining intelligent facial recognition capabilities with unparalleled usability, we provide essential tools that facilitate the frictionless flow of people and transactions in a connected world.

- **Complementary**

Our touchless system is the most comprehensive, efficient solution on the market. It integrates perfectly within our lounge entry management platform. Benefit by being more intuitive with your travelers than ever.

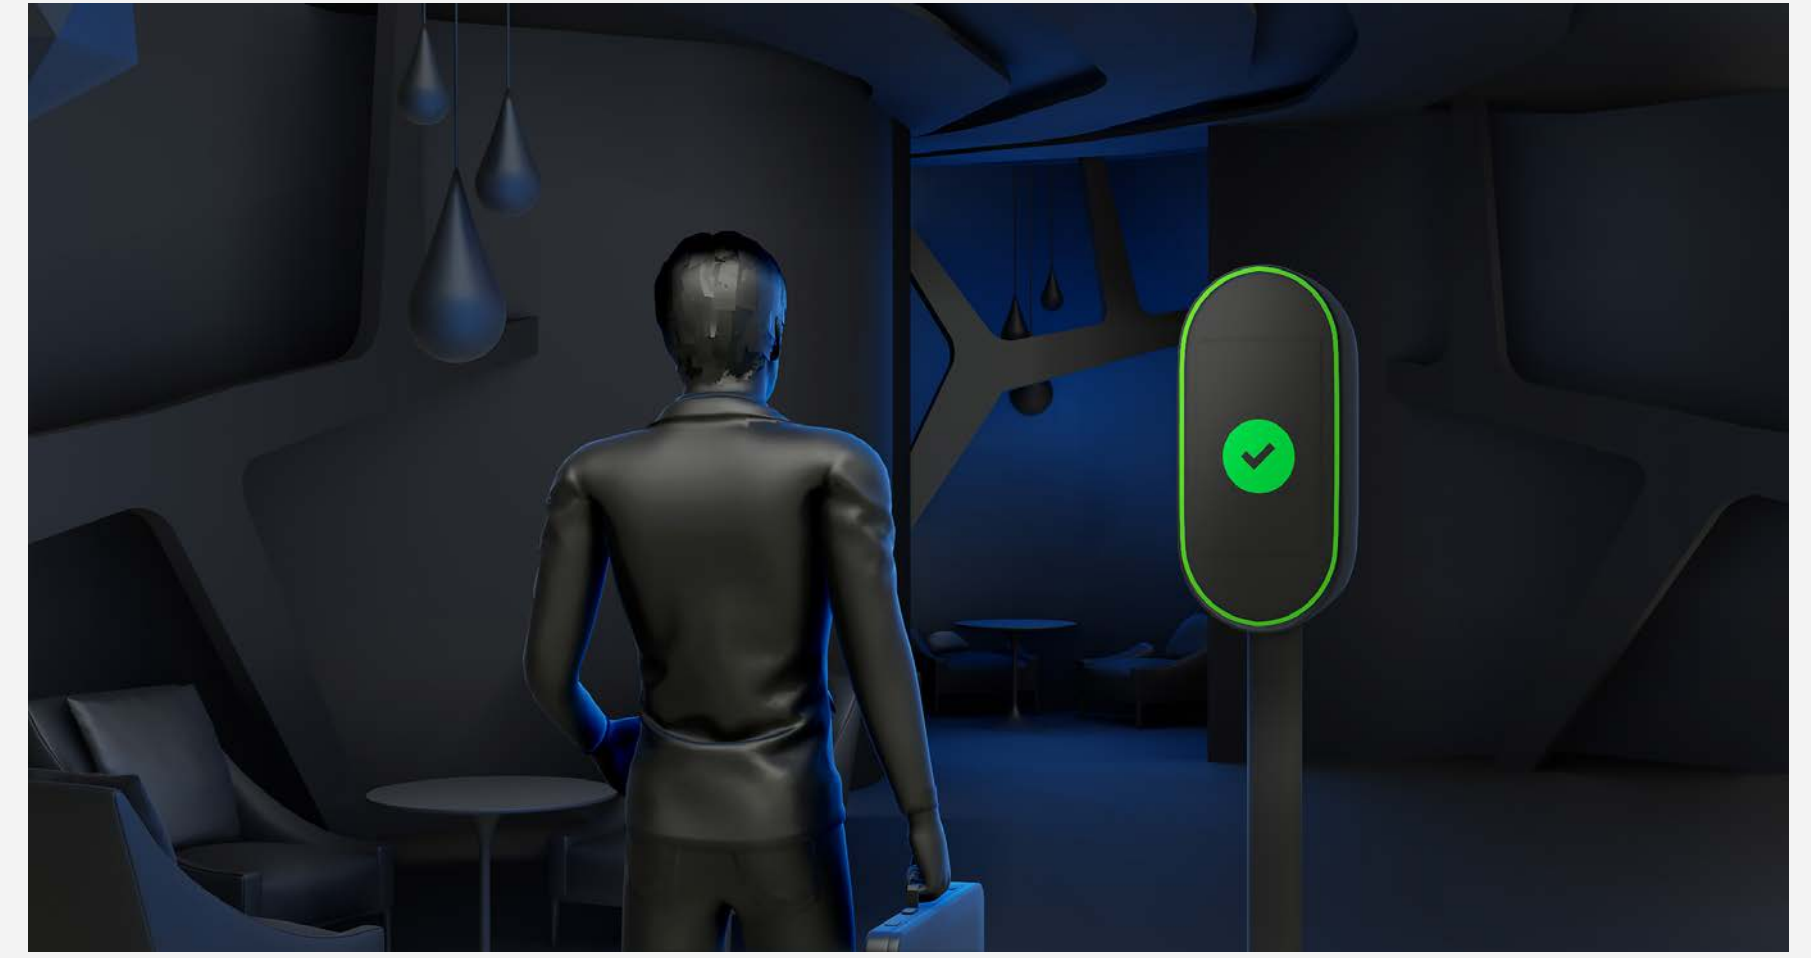

Step 1

Registering using our mobile app is quick and easy. Travelers can enjoy the convenience of control over their data and preferred privacy settings. Opting out is even easier than enrolling.

Step 2

After simply walking by, the travelers facial imprint is validated, and lounge staff is informed of their arrival. Staff may greet them personally and inform them of any ancillary services in the lounge.

If you'd like to schedule a demo or discuss our Frictionless VIP Lounge Access Solution please **contact us directly**.
